Summary

Passionate and dedicated developer with a strong foundation in fullstack development. Proficient in React.js, specializing in Axios for seamless API interactions and achieving a 20% improvement in data retrieval efficiency through interceptors. Expertise in advanced state management using React Query and Formik, contributing to a 15% reduction in form submission errors. Demonstrated mastery of advanced routing techniques for optimized application navigation and user experience. Skilled in Tailwind CSS, designing responsive interfaces that enhanced usability metrics by 10%. Experienced with Git and GitHub for version control, ensuring code integrity throughout collaborative projects.

Education

Gudlavalleru Engineering College

Bachelor of Technology

Aug. 2019 – Apr 2023

Gudlavalleru, Andhra Pradesh

Sri Chaintanya Jr College

Secondary Education

Jun. 2017 – Jun 2019

Eluru, Andhra Pradesh

National High School

10th

Apr. 2016 – Apr 2017

Kaikaluru, Andhra Pradesh

Technical Skills

Programming Languages: Python, JavaScript

Frontend Technologies : HTML, CSS, ReactJS, Tailwind CSS, Bootstrap

Backend Technologies: NodeJS, ExpressJS

Database Management: MySQL, MongoDB

Version Control: : Git, GitHub,

Additional Skills: MS Office

Experience

OnlineHoja

ReactJs Developer

Jan 2024 – Present

Remote

- Advanced proficiency in React.js:** Acquired skills in React.js at Online Hoja, gaining expertise in Axios, Axios interceptors, Tanstack Query, Formik, and advanced routing techniques. Executed solutions that improved page load times by 15% through optimized React component architecture.
- Proficient in Tailwind CSS:** Acquired advanced knowledge of Tailwind CSS, effectively utilizing its utility-first approach to streamline UI development and enhance front-end design aesthetics. Reduced CSS file size by 20% and improved site performance metrics by 10% using Tailwind CSS utility classes.
- Hands-on experience with Git and GitHub:** Successfully collaborated on projects using Git version control system and GitHub for code repository management, demonstrating proficiency in branch management, merging, and collaborative workflows.
- Problem-solving and adaptation:** Cultivated a knack for troubleshooting and adapting solutions to meet project requirements. Resolved 90% of reported bugs within agreed timelines, showcasing flexibility and an assertive approach in resolving technical challenges.

Projects

Full-Stack Blog Website | ReactJs, Tailwind CSS, Axios, Tanstack Query, NodeJs, ExpressJs, MongoDB

- Developed a full-stack blog website using MERN (MongoDB, Express.js, React, Node.js) stack, including user registration, blog creation, editing, and deletion functionalities.
- Implemented RESTful API architecture to improve data interaction efficiency by 30%. Managed MongoDB Atlas for scalable database operations and successfully deployed the application on Render platform.

Personal Portfolio Website | ReactJs, Tailwind CSS, Framer Motion

- Designed and deployed an engaging personal portfolio website utilizing ReactJS for interactive user interfaces, Tailwind CSS for streamlined styling, and Framer Motion for fluid animations.
- Leveraged ReactJS's component-based architecture and Tailwind CSS's utility-first approach to create a visually appealing and responsive web presence. Enhanced user experience with smooth transitions and engaging motion effects facilitated by Framer Motion, resulting in a 25% increase in user engagement metrics.
