WORK EXPERIENCE

Junior Front-end Developer
OnlineHoja, India
January 2024 - Present

- Trained in advanced ReactJS concepts and Tailwind CSS for front-end development.
- Contributed to an e-commerce website, focusing on responsive design and performance optimization.
- Collaborated with senior developers to implement new features and resolve technical issues.
- Participated actively in code reviews to maintain high code quality and improve team efficiency.

RECENT PROJECTS

Personal Portfolio Website

- Designed and implemented a dynamic personal portfolio website utilizing ReactJS for interactive user interfaces, Tailwind CSS for streamlined styling, and Framer Motion for fluid animations.
- Leveraged ReactJS's component-based architecture alongside Tailwind CSS's utility-first approach to create a visually appealing and responsive web presence, enhancing user experience through smooth transitions and engaging motion effects facilitated by Framer Motion.

Interior Designer Website

- Spearheaded the creation of an innovative interior design platform using ReactJS, React Router, and Bootstrap, allowing users to seamlessly navigate through diverse design inspirations and project portfolios.
- Integrated React Router for efficient client-side routing and Bootstrap's robust CSS framework to ensure a responsive and visually captivating user interface, empowering interior design enthusiasts to explore and engage with captivating design concepts effortlessly.
